/J. S. B./  
Examiner, Art Unit 2878

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: In order to place Claims 10-11 in condition for allowance concurrent with all other claims in the application, an Examiner's amendment to Claims 10-11 to include the allowable subject matter for the other independent claims in said Claims 10-11 was discussed. Applicant approved amendment to both independent Claims 10-11 to include that the "receiving unit" (or associated "receiving step") be operable as to receive information --from the image projecting apparatus--, thereby including the allowable concept of the image projecting apparatus monitoring the status of the communication in the claims (to address the concern of art relating to a processing system [image generating apparatus] 'pinging' external devices to determine communication reading on the claims).
